RFP Questions and Answers for FY22 Solicitation

Question:

For the Mental health treatment for South Bristol County and Fall River and Substance abuse treatment for E. Boston, Malden and Chelsea do you need to have an office the specific towns for the contract or can the offices be in surrounding communities?

Answer:

The vendor who is awarded the contract must have one location within the catchment area. Clients will then be required to travel to the vendor's location to participate in contracted services.

The catchment area described in Section C of the Request for Proposals refers to the geographical area in which a vendor can have one or multiple locations that could be used to perform the services contracted by the U.S. Probation Office.
